

ArcticRevolution 75B

An Outstanding New Design With Increased Fuctionality.
(To replace the AcrcticRevolution 70/70B)

Functionality

- The ArcticRevolution 75B represents a significant UPGRADE in design and functionality which replaces the ArcticRevolution 70/70B.
- A Direct Chill Table Top Cooler dispensing ambient & chilled water.
- Can be fitted with a KLARAN UVC LED self sanitising processor and a contactless kit to stop hand to tap contamination.
- Narrow footprint for small worktop spaces and low height to fit under overhanging kitchen cupboard.
- R600a gas.
- Dispensing height of 23cm.
- Hourly chilled capacity of 10ltr.
- Flood Guard inlet solenoid protects against large scale flooding.
- Hygiene Guard reduces the risk of contamination of the dispensing nozzle.
- High quality build by Wonbong.

| Description | Dimensions H X W X D (MM) | Weight (Kg) |

Dispensing Ambient or Chilled Water

Dispensing Ambient Water

- Select Ambient Water Selection Button and then touch the Dispensing Button to dispense Ambient Water. When you remove your finger from the Dispensing Button, dispensing stops.
- The droplet in the center of the panel will pulsate in grey during dispensing

Dispensing Chilled Water

- Select Cold Water Selection Button and then touch the Dispensing Button to dispense Cold Water. When you remove your finger from the Dispensing Button, dispensing stops.
- The droplet in the center of the panel will pulsate in blue during dispensing.

Dispensing Using Contactless Option

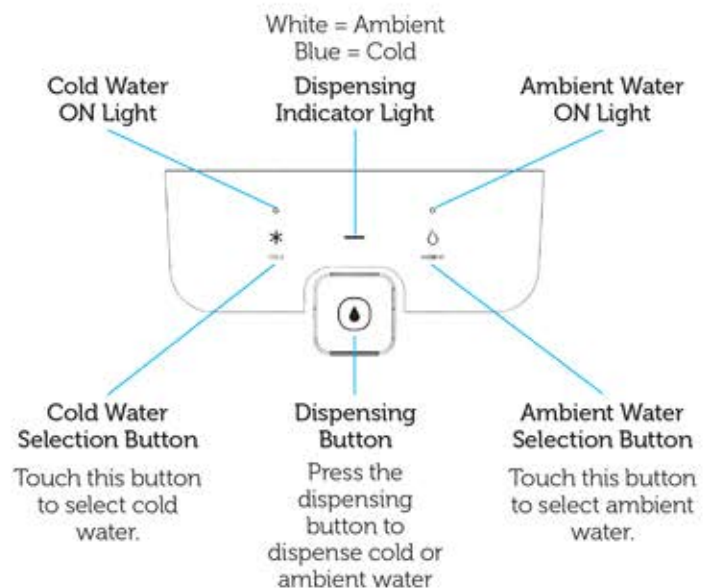

- Place your hand 5 to 10cm in front of the contactless sensor to dispense.

Infra Red Sensor for Cold water dispensing (Left side)

Infra Red Sensor for ambient water dispensing (Right side)

Contactless can also be used in a manual dispensing mode.

Accessories

Installation Rail with FILTER XL In-Line Filter.

Installation rail with green Filter Housing and green Carbon Block Filter Candle or green nanofilter Candle.

FloodGuard - Inlet solenoid only opens to allow water into the cooler, when water is dispensed. By remaining closed all other times it protects the cooler against leaks.
